## Annual Investment

### What is the annual investment about?

The investment is to create a long-term investment relationship where investors can receive their ROIs as milestones.

### Investment attributes:

1. Amount invested
2. Farmlist / Farm name
3. Farm package
4. Maturity date
5. Maturity status

6. Number of units
7. Days remaining
8. Expected Annual Returns
9. Investment Status
10. Expected Quarterly Returns
11. Payment Milestones
12. Milestones Dates

### **Key features:**

1. Payments in milestones
2. ROI payment is automatic: users do not need to request for ROI before they get it. Admin checks which user payment is due and make payments.
3. Users can rollover their funds
4. Dynamic investments: Users can make investments at any point in time and users can make multiple investments. Investments also starts immediately after admin approval.
5. Rollover Terms: Users should be able to get a link that explains the rollover procedure upon choosing rollover.
6. Payment Procedure:

### **FAQ**

1. Will the investment work with the old investment algorithm? - No!
